Education

Moradabad Institute of Technology	**June 2021 – May 2025**
Bachelor of Technology in Computer Science	*Moradabad,*

Experience

GeeksforGeeks	**July 2024 – October 2024**
MERN Stack Trainee	*Moradabad, UP*

- Dedicated Web Developer with required knowledge of MERN. About the role and responsibilities carried out: Effectively communicated and collaborated with team members. Engage in code reviews and adhere to the best coding practices recommended by the trainer. Also contributed to design and implementation of new features and quickly learn and adjust to the team's way of working and development.
- Worked on live projects which enhanced my development skills.
- Explored ways to visualize, create and launch server-side applications and Data using Node.js
- Explored ways to visualize and send a daily report of test results to our Mentor using HTML, JavaScript, and CSS.

Projects

TOMATO FOOD WEBSITE/ *React.js, Node.js, Express.js*   **September 2024**

- **User Authentication and Authorization:** Secure sign-up, login, and logout functionalities using JWT or OAuth.
- **Payment Integration:** Secure payment gateways supporting multiple payment methods (credit cards, PayPal, etc.).
- **RESTful APIs:** Backend APIs developed with Express.js to handle client requests efficiently.
- **Security:** Implement security best practices, including JWT for authentication, HTTPS for secure communication, and data encryption.

WEATHER REPORT ANALYSIS /*HTML, CSS and JavaScript*   **October 2023**

- The project encompasses the creation of a dynamic weather report, employing a full-stack development approach.
- The frontend developed using ReactJS, CSS and Bootstrap, ensures a visually appealing and responsive user interface.
- The backend developed using NodeJS and Express that forms a robust server infrastructure.
